PROJECT

Project - 1
College Website Design
(HTML, CSS, JavaScript)

- Developed a basic College Website Design.
- Utilized HTML and CSS for a user-friendly and responsive interface.
- Implemented a pinch of JavaScript to visualize menu bar in smaller screens and to hide it when it is viewed in desktop screens.
- Learnt a lot of things like how to insert website icons etc while developing this website.
- Explored GitHub while hosting this website.
- Surf through the website:https://eduford-blue.vercel.app/

Project - 2
Third Eye for Blind

- Developed a cheap wearable technology for blind people.
- This project works on the principle of ultrasonic waves.
- We project with a glove. So, the user can wear it easily without relying on others.
- While developing this project, I've also learnt teamwork and team management abilities.
